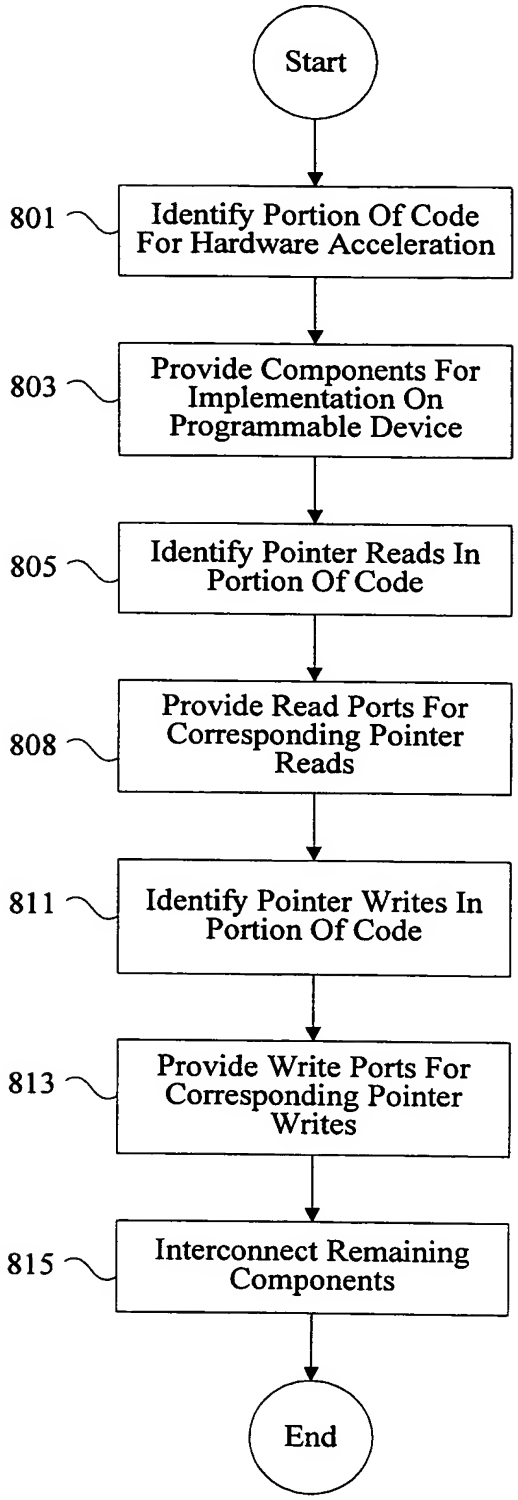
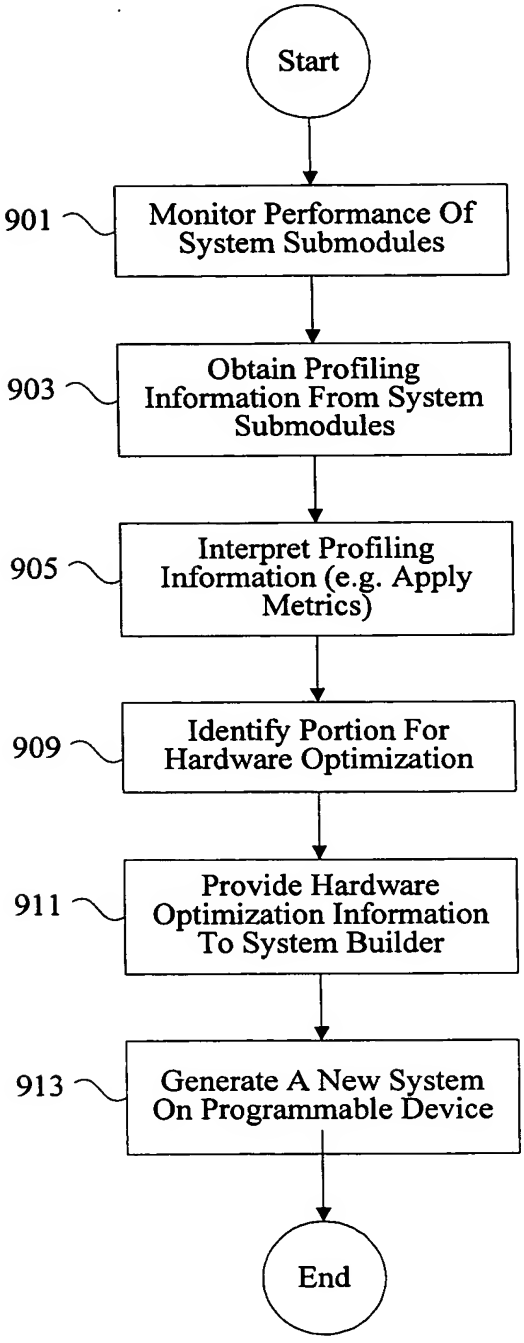
Figure 8



Start
801
Identify Portion Of Code For Hardware Acceleration
803
Provide Components For Implementation On Programmable Device
805
Identify Pointer Reads In Portion Of Code
808
Provide Read Ports For Corresponding Pointer Reads
811
Identify Pointer Writes In Portion Of Code
813
Provide Write Ports For Corresponding Pointer Writes
815
Interconnect Remaining Components
End

Figure 9



Start
901
Monitor Performance Of System Submodules
903
Obtain Profiling Information From System Submodules
905
Interpret Profiling Information (e.g. Apply Metrics)
909
Identify Portion For Hardware Optimization
911
Provide Hardware Optimization Information To System Builder
913
Generate A New System On Programmable Device
End
